

Impact of the Experience

Participants were asked at the end of YAC...

What has been your biggest learning about yourself, as well as about teaching, you have made while participating in YAC?

Appreciation of Teaching

Gained insight into how teaching from a teacher's perspective differs from a student's and developed a greater appreciation for lesson planning and the impact of small details.

"My biggest learning about myself in YAC is that I really care about helping others, especially teachers and students. I've learned that teaching is harder than it looks. Teachers do so much work behind the scenes, and they care a lot about their students. I've also learned that I can make a difference by supporting teachers and raising awareness about their needs."

85%

Of Twin Cities participants said they would be interested in learning more about **future opportunities to participate in Youth as Champions**
